BEACON REPORT by Chris Davy, President

April is probably the most important month of the year for our Club. It's Spring Classic time! This tournament sets the tone for the year financially as well as sort of spiritually brothers and sisters. Why? I'll tell ya why. It marks the beginning of our world class summer time fishing around here. We need everyone who is not fishing to help out in every way you can. Get the word out to friends and neighbors who may want to enter. Help get the poster out to the community in local businesses, and get in touch with Chuck Radloff to volunteer at the Captains Meeting or Weigh-in. Mostly I encourage you to fish. You never know when that one cast will bring some big bucks! Besides included in the entry is one of our cool shirts worth \$20, and we always help out a good cause. Highlight the 21st and 22nd and get out to the tournament, if nothing else just for a good time.

Jose Nunez with Volunteer Coordinator Trish Reonas. Thank you for a great presentation.

Guest Speaker at the March 7th Monthly Meeting was Jose Nunez representing Whitney Lab's Oyster Reef Restoration Initiatives.

This program is designed to enhance oyster populations in our area. Mr. Nunez and his team brought along a biodiversity tank that showed how different sea creatures can coexist and help each other survive.

Check out some of the photos in this issue of *The Chum Line*.

April Forecast

Capt. Jim Britto
saltytalesfishingcharters.com

Well, it will not be long and all of the talk will be about our nearshore Cobia bite! These big bruisers should be following the Manta Rays (currently in Brevard County) north just as soon as our water warms up a little more. When these fish arrive we will see everything from 10 foot jon boats to 30 + foot offshore vessels chasing them. On busy days remember to be courteous – too many boats chasing the same ray will ensure that nobody gets a good chance to hook up. If you see another angler stalking a ray, stay back and keep alert, chances are another ray will come into the picture shortly. Artificial baits like large topwaters or plastic eels, and large swimbaits should make for a productive day. If bait is more your thing – try pogies, mullet, shrimp, blue crabs, or even a large mud minnow.

Inshore anglers can expect a steady diet of redfish, trout, and flounder

now that spring has arrived. Fish deeper holes and creeks on an outgoing tide with shrimp, mullet, or your favorite artificial jig. Follow the fish onto the flats, on the incoming tides and target your favorite shoreline or oyster bars with these same baits, as well.

Offshore captains will be productive with trolling spreads, dolphin show up in numbers at the start of spring. Skirted and naked ballyhoo have been the bait of choice. A few large wahoo are still being caught, as well. In the surf (much like the cobia) pompano are starting to show up in good numbers just to the south of Flagler County. Therefore, it should not be long and these delectable treats will be making their way north also. Shrimp, sand fleas, clams, and even jigs tipped with Fish Bites will all work well for an invitation to dinner! Surfcasters can also look forward to Spanish mackerel showing up in April. These fish are a lot of fun to target with Gotcha plugs, silver spoons or topwater plugs. Remember to use a heavier leader to prevent these toothy creatures from cutting you off.

New Members Clinic by Walt Huresky

Thanks to our speakers and their expertise, our New (and Old) Members Clinic was a great success. I want to thank Chuck Radloff, Captain Chuck Gleichmann who did double duty, Captain Miguel Pandich - "The Kayak Man," Tim Miller who also did double duty, Peter Bessette, Bill May, Hank Alper, and Captain Jeff Rafter. The event was held at Herschel King Park and despite the somewhat windy conditions, we had a good turn out. Members had the opportunity to learn how to fish our local waters from people who are in the know. Our Club appreciates these people who take the time and interest in helping others enjoy what they do - catch fish!

I also want to thank my wife, Ellen, and Pat Gleichmann who took the time to prepare coffee and serve juice and donuts. Thanks also go to Bob Luppold for making sure everyone received a show up raffle ticket, and Dana Synes for selling fifty fifties.

Congratulations to winners: Chris Christain, \$25 show up; Dusty Banks, \$50 Discount to Boaters Exchange; Dave Neddeau Gift Card to Fishin' Shack; new member Mike Janzen who won the rod and reel combo; and Ron Gorney who won \$105 in the fifty fifty.

Director Jeff Rafter is on the Election Committee and reported on the process. Elections will be held at the May 2nd Monthly Meeting.

Director Bill May thanked our annual sponsors and told the membership how important they are to us and encouraged all to use their products & services.

NEW MEMBERS CLINIC PHOTOS

Miguel Pandich brought his kayak and spoke of how to fish from a kayak. A good seat is very important!

Congratulations went to Mike Janzen, the lucky winner of the rod and reel combo.

Thank you Bob Luppold for making sure everyone received a show-up raffle ticket.

Capt. Chuck Gleichmann shared his knowledge of inshore fishing - what lures, gear, and rigging to use.

Thank you, Dana Synes and Lisa Moravec for helping out.

Tim Miller brought along one of his preferred baits, a sand flea, and spoke about pier and bridge fishing.

New Members Clinic at Herschel King Park had a very good turn out.

Thanks Chuck Radloff for the lesson on how to throw a cast net. I've got the basics down. Thanks for the pix, too.

Capt. Jeff Rafter brought along his sand buggy and shared his extensive knowledge of surf fishing with us.

Red and Black Tournament Wrap-Up by Andy Block

Saturday February 25th was overcast with some light rain on and off for the Black and Red Tournament. In spite of the weather, members and guests weighed in some nice black drum and redfish at Bing's Landing with the club's weigh-master Rita Waddell. Seventy-three people had signed up and about ninety attended the weigh in and lunch.

The black drum winners were Bill Moore in 1st place with a 5.95 pounder, Carol Webb in second place with a 1.8, Chuck Radloff in third with a 1.2 and Conrad Rice won the drawing for 4th (nobody had a 4th place fish so we drew a ticket for the prize money). As for the redfish category, Les Romaine won 1st place with a 5.55 lb. redfish, Daniel St. Hiliare took second with a 5.25, Andy Block took 3rd with a 5.2 and Jim Britton took 4th with a 4.2. The com-

bined weight category went to Bill Moore with his total redfish/black drum weight of 8.85 lbs. and the most spots went to Andy Block with 6 spots. The raffle for the inshore rod and reel combo was won by Russ Long, the "show up raffle" of a \$50 gift card (donated by our friends at The Fishin' Shack) was won by Bill May, a park pass for up to eight people to any Florida state park (donated by our friends at Gamble Rogers State Park) was won by Chuck Radloff, and the 50/50 prize money was won by Bill Moore. Congratulations to the winners and thanks to everybody that fished, attended, bought raffle and 50/50 tickets and helped with the event. Additionally, thanks to Diana Mac Donald, Roy Lawson, Rod Fonseca, Norm Manley and Mike Crofts for help with the set up and breakdown, Javier Reyes for making sure everyone got a "show up" ticket, Ellen Scheurer for her photography and Dean Roberts for ordering and picking up the sandwiches that we all enjoyed.

Guest Speaker - Bill Moore

During Bill's teen years he fished the piers, bridges, and seawalls of greater Mimi and the Keys. He also fished the Everglades for bass, snook, and back water tarpon. During his college years at Stetson University, he fished for bass in many Central Florida lakes, rivers, and streams. In the late 60's he lived for a couple of years in Ft. Meyers and fished around Sanibel and Pine Islands. In 1970 Bill, his wife and three daughters (you may be familiar with one of Bill's daughters, Carol Webb) moved to Lake Mary. For the next thirty years he fished for bass in the St. Johns River and nearby lakes, but spent most of his fishing time wading Mosquito Lagoon fishing for trout. The last ten year, Bill has been trying to learn how to catch fish from the Flagler Beach Pier and in the ICW in Flagler County. Of all the areas in our State Bill that has fished inshore, he has found the Flagler area the most challenging and the most rewarding. Bill believes the variety of game fish in our area is Outstanding compared to his past fishing experience.

Club Meeting Minutes 03-07-17

7:00 – 7:30 PM: Captain Chuck Gleichmann – Quick Tips on knot tying.

Pledge of Allegiance : Led by Dean Roberts

Welcome visitors and new members: We had 8 visitors or new members in attendance.

Treasurer's Report: Gary Fisher said we have \$19,613.83 in the checking account. Dues are due, you can pay him to-night if you want. Invoices for 288 members went out with a letter, please review your application and make any changes necessary. In particular, to help out the weigh master, please list all children on your application, first and last names. Especially if they are going to be entering any fish in the year long tournament. The children's names need to be entered into our club data base. Also list if you have a boat and if you are interested in volunteering to help at any of our events. Bruce Bandes made an announcement that the directors had discussed purchasing children's size club shirts to sell and how many people would be interested in us doing this. A hand vote was taken at at this meeting, 3 people were interested. Bruce also told anyone who had not received their club calendar for 2017 to see Ellen Scheurer to get their calendar.

Hank is working on how to present and entering data into the website, go to our member website to see the standings. Rita also mentioned how important it is to enter any children's names on your slip when sending in your dues, so she can identify any weigh in slips with the family of the child fishing. She also mentioned that we have 6 weigh in stations now, they are as follows: Big Al's Bait & Tackle in Flagler Beach, Palm Coast Marina in Palm Coast, Flagler Pier in Flagler Beach, Backwater Bait and High Bridge,

Break:

Speaker: Jose Nunez is a researcher with the Whitney Laboratory for Marine Bio-Science and has an extensive background in biology and ecology and currently is a part of the Osborne Lab. He spoke to us about the importance of oyster reefs and estuaries. He also gave examples of some of the different fish such as Mahi Mahi that grow 20 lbs in one year and a White Sturgeon can grow to 20 feet long and be 1800 lbs. He was assisted in his talk and displays by Trish Reonus, Robin Holman, Pam Kleinsasser and Jody Block. He told us that oysters attach to a structure and oyster shells will settle on the bottom and attach on something and are there forever and they are called a spat, they grow fast and become clusters and that three months after hatching as a male, they become a female. Oysters function as ecosystem engineers, they filter and clean the waters, improving the quality of it. He told us that queen conch are a threat to the oyster reefs and have destroyed most of the oyster reefs by Matanzas. He had handouts on becoming an oyster gardener with oyster moduals that you grow and then return to Whitney Labs to be put back into the ocean. He also told us to be responsible boaters and to support oyster restoration. His information was very interesting and knowledgeable. He also had a tank display set up with some aquatic larvae fish, such as a lobster, it was so small you could hardly see them.

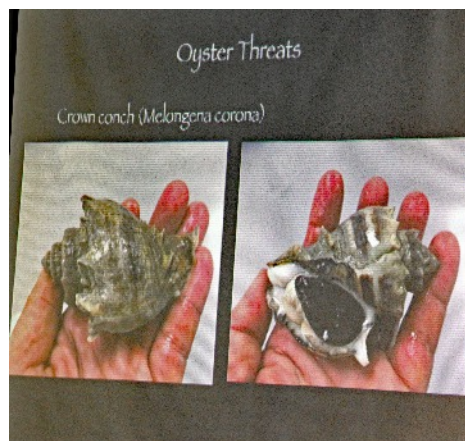

50/50 Winner: There was no 50/50 raffle at this meeting.

Meeting adjourned at 9:20 PM

Submitted by Secretary, Carol Carter

Members are delighted by the biodiversity in the tank supplied by Whitney Lab's Oyster Reef Restoration's team.

Rumor has it that these are good to eat, but are not good to the oyster population.
