

The Chum Line

FLAGLER SPORTFISHING CLUB

From the Helm—November 2021

by Chris Christian

As of today October 27, the weather is super but windy, and we are planning on fishing tomorrow anyway starting at dead low tide back in the flats. Wish us luck!

At the next meeting, November 9th (2nd Tuesday) starting at 6.30 we are having a meeting of the fishing groups, so if you want to hook up with other anglers that fish the way you would like to learn, then this is a great way to get together. The groups are kayak, surf, pier and inshore to start off with, so see Mark Webb.

This month's meeting is scheduled for the 2nd Tuesday November 9th due to elections at the VFW on the 1st Tuesday. We will be having Captain Ralph Olivett sharing his fishing skills with us. Meeting starts at 7.30pm.

We will be collecting Christmas Reservations payments and giving out Christmas Come True Cards to those who wish to shop for a local child.

The last Free Club Tournament of the year is November 13th and changed around a little since Flounder season is closed for another month. It's called Red White and Blue and the weigh-in will be held at Bings Landing. See the web or Chum Line for details.

There will be no Monthly Meeting in December, so enjoy your family during this Holiday season.

See you on the water
Chris Christian

Recipe of the Month: Whole Turkey (Smoked)

Whole Turkey (Smoked) (Serves 8)

1. Take a small fresh turkey 10-13 lbs and clean out the inside removing the organs and neck. Save this for your giblet gravy.
 - 1a. Soak in a brine a 24-48 hours in the refrigerator or cooler. (heat up 1 cup of kosher salt, 1 box of chicken broth, rosemary, onion powder, garlic cloves, pepper corns, bay leaves, brown sugar and water). Put in a big container and add water to cover the bird. Put in the refrigerator for at least 2 days prior to cook day.
2. Take the turkey out of the brine and rinse off completely. Remove the plastic thing holding the legs and remove the temperature pop up which is useless.
3. Soften some real butter and mix with onion powder, garlic powder and pepper
4. Stuff this butter under the skin of the bird with your hands (Julia Child method). if you tear the skin repair with toothpicks. Put onions, garlic inside the bird with a health amount of butter and salt and pepper. Tuck the wings under and tie the legs together to close up the turkey.
5. Put back in refrigerator for a day.
6. Take out of refrigerator on cook day let it rest while you prepare the smoker
7. Make an injection – Chicken broth, salt,

and butter – heat up and let cool. Then inject all over the turkey

Prepare the Smoker for cooking

1. Using a Kamado type smoker, fill with natural charcoal.
2. Pick the wood for smoke and place on top of the lit fire. (Pecan, Apple, Hickory, Cherry)
3. Use an indirect heat stone for your grill to shield the turkey from the direct heat
- 3a. Place the turkey upside down or breast down in a rack inside of an aluminum pan also shielded with bricks so it doesn't get too hot
4. Heat the smoker to 225-250 degrees. Use a temperature probe to monitor the turkey.
5. Place the turkey on the grill. After 2 hours, flip the turkey right side up or breast up
6. Watch the heat and make sure it does not rise above 275 or drop below 200 degrees
7. After 3 hours check the temp of the turkey and take off when the breast is 165 degrees
8. Take off and let rest 15-30 minutes and serve

Cook Time – 4-6 hours

Tournament Chairman Report by Tim Miller

The club had our second surf tournament on October 23, 2021. Although the weather and surf were great, few fish were caught. Two fish places were paid to members from drawing of those that fished and had not already won. Keep in mind that you never know how other members luck will be fishing and if you fish, come to the weigh in as you could win without weighing in any fish. See Surf Tournament summary for results of the Tournament.

We have a change for the November 13th Tournament. As Flounder is closed October 15, 2021, thru November 30, 2021, we are changing this to the Red, White and Blue Tournament. Winning fish will be Red Drum,

Whiting and Blue Fish.

The yearlong CPR tournament is in full swing. 20 members have released a total of 303 legal fish in 9 different species. Remember that fish must be of legal length and in season to count for CPR Tournament. Get your club bump board and start entering your fish for a chance at great prizes at the end of the year. You only need to upload one released fish to be entered into the prize drawings. Then every 5 fish after that will get you more entries.

Thank you to all the volunteers that helped with club tournaments. Without this help the club would not be able to provide these great events. Be sure to sign up as a helper for the next tournament.

October Weigh Master Report

by Chuck Radloff

The September Fish of The Month was Redfish and the heaviest weighed 8 lb. 4 oz caught by Michael Brandon. He chose Hammock Bait & Tackle for his \$50 gift card.

The Fish of the Month for October was Bluefish. The winner will be announced at the meeting. November's Fish of the month is Snook.

The CPR (catch, photo, release) tournament is progressing nicely with many photos being submitted. We have a good supply of our official bump boards available to buy for \$20.

If you ever have a problem weighing in at one of our weigh stations, you can call me and come by my home, if I am available.

NOTICE - The overall species Leaders and Full Point Standings are updated at the end of each month on our website: <https://flaglersportfishing.com/> by clicking on **Quick Look At Year Long**, and in the latest Chum Line publication delivered by Email.

Thanks for everyone's support, and if you have any questions, please let me know.

November Fishing Report by Captain Tim Jarvis

Inshore: There's still a lot of mullet around in November so keep using top water lures and jerk baits for redfish, trout and snook on the flats, creeks and ICW banks.

When the air temperature is in the low 50s in the morning and the high is in the 70s I like to wait for the sun to be at the highest point and sight cast snook that are at the top of the water sunning themselves. Use a freelined live shrimp on a 2/0-3/0 j-hook or a circle hook with a 20-25 pound fluorocarbon leader, toss the shrimp about 2-3 feet in front of them. They will not refuse that bait as long as it is alive.

For the night time anglers check the dock lights for some good trout fishing. Use a popping cork and shrimp or a weightless jerk bait and toss these baits up by the lights and hang on! Remember flounder are catch and release only until December 1st.

Surf & pier: Pompano fishing should pick up this month and they are one of my favorite fish to eat and super fun to catch on light tackle. Use your favorite pompano jig tipped with a piece of shrimp or sand flea, try to fish the trough for them. Freelining a mullet on the pier or in the surf could get you a big redfish or snook. Try sand fleas and shrimp on little jig heads for sheepshead and whiting.

Offshore: Mangrove snapper around the full moon is excellent fishing when the weather will let you get out. If there's good current you might be able to chum them up to the surface. Try to use the lightest leader you can because they can be very leader shy. I would try 25lb fluorocarbon first with a crusher jig with a cigar minnow or small pilchard. If you're fishing the bottom try a knocker rig with a pinfish or any cut bait of your choice. You have a chance of catching some trigger fish and bee liners. I like cutting up the bee liners for fresh bait.

Troll your favorite lures or rigged ballyhoo for

sailfish and wahoo starting in the 90 feet of water and work your way to the deeper water around the ledge. Troll at 10 knots but sometimes you might have to troll 15-20 knots. Good Luck and be safe!

Break

Guest Speaker: Cpt. Chris Davy – Chris said the way he fishes and most of the other captains he knows, do a method called the bait and wait, you drop your anchor and hit a hole, but you don't put on a shrimp and throw it out there. To find a hole, pull up Google Earth on your phone, find the hole at low tide, not high tide, you want low when the tide is coming in. You don't want to get your boat stuck and not be able to get out. Never use more than 1/8 oz jighead or knocker rig. Find water and deep holes at certain times. At the inlet you will see people lined up, when you get good holes, use good bait, hook the bait correctly. Look for the oyster beds, see if the tide is low. Usually around 20 minutes for the fish to turn on. Use mullet, croaker or pinfish for live bait. You limit yourself if you just use dead bait. He uses 20 lb. braid and fluorocarbon. When using live bait, he uses a circle hook, he uses jigheads with live mullet, shrimp (pinch the tails and put the hook through the back part-tail) and pop it. That is how the shrimp act when they are attacked. Cast 9 to 3 o'clock area. Try Google Earth to find spots to fish in. Keep a log and know what your tides are. Flounder eat pinfish. Your hook should match your bait. Adjust your weight and hooks. Don't use heavy tackle, you want skinny, small, tackle. You have to know how to cast to do artificial baits, he uses Gulp shrimp for flounder. Ease your bait across to attract fish. In the creeks you need a trolling motor, a quiet one. Between the braid and the fluorocarbon, he uses a UNI knot, leader a foot long for a knocker rig. He runs a black Sharpie marker up the braid just past the fluorocarbon to camouflage it.

50/50 Drawing: Winner of \$180.00 Cookie Zimmer, with help from an anonymous friend!

Spotted seatrout will be closed to recreational harvest Nov. 1 through Dec. 31 in the Central East Region, which includes all state and federal waters from Palm Beach through Volusia counties (see map for all regions below). Spotted seatrout are one of Florida's most popular inshore fisheries.
