## FROM THE HELM - BY CAPTAIN ADAM MORLEY

Dear Flagler Sportfishing Club Members,

Happy New Year!

I'm thrilled to announce exciting changes for our community. Our monthly meetings are now on the first Thursday of each month at Club 51/ Social Club in Palm Coast, just next door to our previous location at the VFW.

Before our meetings, make sure to take advantage of our new "topic tables" at 7pm. Here, both new and seasoned anglers can gather to share success stories, tips, and insights on the diverse styles of fishing we all love.

As we embrace the cooler temperatures, let's gear up for spring's arrival. Anticipate a strong bite on sunny days with rising water temperatures. It's the perfect time to exchange ideas and plan for successful outings.

See you at Club 51 for our upcoming meeting - this Thursday, February 1st.

Best regards,

Capt. Adam Morley  
President, Flagler Sportfishing Club

The year, 2024, started out with the clubs first free member tournament. Thank you to Bill & Cookie Zimmer for hosting this event along with all their helpers. Despite the cold and windy weather, the Sheephead Tournament had a strong turnout of members to enjoy tasty food and fellowship. Look for the list of winners and full details in this issue of the Chum Line.

The clubs' yearlong results are housed on a new website. This site has some great new features, including an AI program. This AI program allows you to ask fishing questions. You can access the site via "Myweighmaster.com"

Once on the site, click 'Login', Click 'Create Account'. Once you have an account, click 'Myclub', Click 'Take me to my club'.

The 2024 Catch Photo and Release Tournament is off to a great start. Members have already photographed and released some fish. Get your club bump board and start entering your fish for a chance at great prizes at the end of the year. It only takes one fish to be entered in the Tournament. Note, that for 2024, fish can be caught anywhere in the state of Florida.

Our next tournament will be the Black & Red Tournament on February 17, 2024. See flyer included in this issue with all the information. With \$700.00 in prize money, this is an opportunity to win money to cover your 2024 dues. Use the link below to see all the events for 2024 so you can plan your year with your Fishing Club.

Two changes to the Year Long Tournament and the CPR Tournament to note for this year. For the Year Long Tournament, fish must be caught in Volusia, Flagler or St. Johns Counties. For the CPR fish can be caught anywhere in the state of Florida.

Thank you to all the volunteers that helped with club tournaments. Without this help the club would not be able to provide these momentous events. Be sure to sign up as a helper for the next tournament. I also need members to chair this year's tournaments. Please let me know if you can be the chair for any tournaments in 2024.

We have a good supply of our official bump boards available to buy for \$20. If you wish to use your own bump board, it needs to be approved by the club and a sticker attached to be legal.

A reminder for everyone fishing in our tournaments: All fish must comply with FWC rules. New for 2024, fish weighed in for our club tournaments must be caught in St. Johns, Flagler, and Volusia counties. Fish being photographed and released for CPR entry must be caught in state of Florida waters.

Fish brought to the weigh-in are required to be measured on the official club bump board before being weighed. There is no need to take the fish to a weigh station. ## FISHING REPORT BY CHRIS CREGO

### Flagler County Fishing Report – January 2024 recap

#### Fishing Report brought to you by Chris with Skinny Water Lures.

In the beginning of January the water and air temperatures continue to drop, but Chris from Skinny Water Lures has got you covered with some great fishing advice for these cooler Florida temps!

As the temperature drops, the predatory fish are pushing to the deeper holes to stay warm. We found targeting these deeper holes early morning while slowly bouncing or dragging a 3 inch paddle tail or curly tail grub along the bottom, had the redfish chewing. As you target these deeper holes back in the flats or small creeks, remember to work these areas slowly and as quietly as possible. With the drop in temperatures these redfish are lethargic and will be spooked easily. Mid-day, while fishing the small creeks mouths, we found good numbers of redfish sunning on top and along side the oyster bars. As the temperatures continue to drop, focus on a very slow retrieve around oyster bars and deep holes.

Mid month the bite was on fire. With the cold water temperatures we set out looking to focus on the deep holes around oyster bars in the High Bridge area. Early morning we focused on the trout bite, by tying on a Skinny Water Lures suspending twitchbait. We found areas with moving water, so that throwing up current allowed the lure to drift back towards us. We focused our retrieve on a twitch-twitch-pause method. During this winter time your twitch motion should be soft and light. Most strikes happened as this twitch bait was suspended in the water column, allowing that bait to float motionless. In the winter time and during colder water temperatures, work these style lures with a twitching motion every few seconds. Really slow down your retrieve in the winter.

As we mentioned, in these colder months the redfish become very lethargic and spook easily. If you throw a larger paddle tail or a lure with a lot of vibration or action you will tend to drive these redfish away. Keeping this in mind, we decide to downsize and throw the 3 inch SWL curly tail grub. We focused areas with deep holes and nearby oyster bars. These deep holes hold warmer water and the nearby oyster bars allow the redfish to adventure out to get bait and then dive back into the deep hole. Focus bouncing a curly tail grub on a jig-head off the bottom in the deep holes. Doing this jigging motion in the water column and allowing it to fall right back down, gives that corkscrew tail tremendous action with less vibration. Doing this technique allowed us to produce numerous upper slot redfish.

## FISHING REPORT CONTINUED

Approaching the end of the month the bite became tough due to more cold fronts and rainy days. Fish become more active as the drop in barometric pressure signals feeding opportunities. The approaching precipitation often stimulates fish to feed more aggressively, making it an opportune time to fish. However immediately after rain or during a cold front, fish might become less active. The sudden change in weather conditions can temporarily disrupt their feeding patterns, leading to a potential lull in bites. Patience and adaptability become crucial as you may need to adjust your technique, lures or bait presentation to entice bites during these post frontal conditions. Understanding the nuances of fish behavior in response to weather changes adds an extra layer of strategy for success on the water during these times.

During the winter time, the speckle sea trout bite will also turn up. Focus areas with deep drop-offs or deep holes with moving water. These deep drop-offs or holes with moving water allow the trout to gather in multiple numbers. These trout will position down deep or just outside the drop-offs, waiting to ambush the bait fish as the current pushes them over the deep holes. With these winter patterns we found a suspending twitchbait is the bait of choice for trout. These trout cannot resist the twitch pause action, causing most strikes to happen on the pause. This action allows the suspending twitchbait to be a top rated lure of choice for winter time trout.

## 'kids4reel' IN THE COMMUNITY

### 'kids4reel' Makes a Splash at the Marine Life Literacy Event!

In the spirit of marine education and community engagement, Flagler Sportfishing Club's 'kids4reel' proudly participated in the Flagler 'Marine Life Literacy Event' on January 11, 2024. Held in the early evening at Wadsworth Elementary School, the event saw an impressive turnout of approximately 100 local families, including kindergarten through 2nd graders.

The Marine Life Literacy Event brought together various local elementary schools and organizations, such as UF Marineland, Guy Harvey Foundation, and, of course, our very own Flagler Sportfishing Club's 'kids4reel' Junior Angler team. The heart of the event lay in the student 'learning stations,' where young minds absorbed knowledge from different facets of marine life.

Our dedicated 'kids4reel' volunteer team, consisting of Ray McCall, Deb Marinco, and Cathy Kazio, took charge of the 'fish' learning station. The station was a vibrant hub of activity, featuring rods and reels, a cast net generously donated by volunteer Mike Crotts, live shrimp that captivated the children's attention, a bait bucket, a fish measuring stick courtesy of Ray McCall, marine life coloring books, freshwater fish posters, bookmarks provided by FWC, assorted baits donated by Fishbites, and our proud FSC banner brought by Deb Marinco.

Dawn Emling, Literacy coach at Belle Terre Elementary School, orchestrated a total of 12 learning stations, with our 'kids4reel' learning station standing out for its interactive and educational experience. A heartfelt thank you to Dawn for her boundless energy and creativity in making the event a resounding success.

Cathy Kazio, an esteemed FSC member and 'kids4reel' volunteer, shared her thoughts on the night: "It was a great night in which the students had a lot of fun holding live shrimp and learning all about fishing. They loved the fish posters and other resources that we provided. The parents are very excited about our FSC Fishing Clinic coming up this summer."

This event serves as yet another shining example of how our Club continues to make a positive impact on our local community. Stay tuned for more exciting initiatives from Flagler Sportfishing Club and 'kids4reel!' 🧑🏻‍🎓📚🐟

Mike Vickers explained that the cost had doubled at the VFW and we were paying to rent the room and there were poker games and Queen of Heart games going on in our room that were disruptive to our meetings. The board of directors felt we were getting a better deal and rate at the Social Club. We will still contribute to the VFW, if we wish to. The club is being sued, our insurance is protecting the club. If you need more information on it, you can go to the Clerk of the Court for information. Mike Vickers addressed to us that the credit card fees are around \$1,000.00 a year. We get charged when you renew your membership by credit card and if we have to do any refunds, like when the Bottom Trip got cancelled twice this year, we don't get those fees back. Chum Line, the cut off for registration whether you are fishing or not is the Wed. before the tournament on 1/17th. For CPR fish, bring photo and show it to the Weigh Master, Scott, to record it. The Feb. & March tournaments are taken care of for chairpersons.

**Weigh Master Report:** Scott Robertson reported to Adam that it is Jan. 2nd and Tim Miller is already ahead of him in the CPR Tournament. January Fish of the Month is Black Drum size 14-24" 5 fish per bag limit. The Nov. FOM was Sea Trout/Snook – the winner was Mark Heffley who caught a Sea Trout, there was no winner for the Snook prize. The Dec. FOM was Whiting and the winner was Karen Dougherty who caught a 1 lb 4 oz whiting and received a gift card from Hammock Bait Shop for \$50.00. There was a question from the audience on how to do the FOM tournament. Answer is: Take the fish to the weigh station, weigh it in, fill out the white & yellow ticket, you keep the yellow part and give the white part back to the bait shop employee and make sure they sign it as a witness. For the Year Long Tournament winners, Scott will send you all an email showing what the eligible prizes are, go to the site of what you want, put sizes, your name and the fish if you wish. **BREAK****Guest Speaker: Tim Miller – How to fish for Sheepshead**

Look for Sheepshead around pilings, you can catch them off of Matanzas Bridge, get them in the surf, at Jungle Hut where the rocks are and Marineland off the beach in the intercoastal water at High Bridge, Dunlawton rocks in the jetty, also at St. Augustine. Sand fleas are his to-go bait, they like fiddler crabs also but in the winter the crabs are usually in the ground. You can also use shrimp, frozen sand fleas are not as good as the live ones. Sand fleas are hard to find right now but when you can get them, keep them in the cooler don't put them in the sun. Some people catch them and blanch them. He puts them in a baggie and takes out a few at a time to use, if they stay out too long, they will turn black and die, so keep them in a cool place. He uses #1 O circle hooks, you don't need to jerk a circle hook. He uses Eagle Claw brand, always keep your hooks razor sharp and if they get dull, sharpen them up. He uses a split shot to keep the bait at the bottom, pay attention because the bait fish will steal your bait really fast. If you feel a slight hit, it may be a Sheepshead, he holds his rod, doesn't lie it down. You don't want a long leader, he uses 6" to a foot, you want a short leader. He doesn't use fluorocarbon, uses 30" Walmart \$1.99 line against the braid. When the current slacks, the sheepshead come out from where they are around the dock to feed. Check your bait every 10 minutes. He uses a snap swivel with a 1 oz egg sinker, barrel swivel, 30# leader ( A Carolina Rig). You can use a jighead but the sheepshead will feel that jighead and swim away. You will catch big ones in Jan, Feb. & March. Fish the tides at Matanzas 1 hour before and one hour after the high tide. In the intercoastal, when the water slows down, that's the time to be there. At Matanzas the sand is always shifting.

**50/50 Winner** – was Kevin Stehn for \$110.00 We had 61 members in attendance tonight. Motion to adjourn meeting made by Tim Beebe and seconded by Rick Chapman.
