

FLAGLER SPORTFISHING CLUB THE CHUM LINE

FROM THE HELM - BY CAPTAIN MIKE VICKERS JR.

Dear Flagler Sportfishing Club Members,

Happy NEW YEAR! I hope that you enjoyed your Christmas and can start the new year with a resolution to fish more. I know that needs to be my resolution.

Many of you may have received new rods and reels for Christmas. Let us begin the new year with a tech tip. Setting your drag sounds simple enough, though it is done incorrectly all too often. There are numerous thoughts on how to set the drag and it varies by type of line. The rule of thumb for setting the drag with mono line is 20-30% of the line breaking strength and 15-25% for braided line.

To set your drag properly, there is only one correct and accurate way and that is with a scale. For the recreational angler this may be a bit much and not as necessary. This method is used in big money tournaments. For the recreational angler, I recommend the scale method until you have the feel for the proper drag setting. There is much debate as to the position of the rod and where to pull the line from (directly from the reel or through a bent rod) This I will leave of up to you.

HIGHLIGHTS

- **Member Meeting and Chili Cook-Off January 9th**
- **Winners of the 2024 Yearlong Species Tournament will be announced & winners of the 2024 CPR tournament will be drawn at the January Meeting**

FROM THE HELM CONTINUED

The more you check your drag setting, the more you will get the feel for it and then be able to pull directly from the reel, which is how I check the setting of my drag. Either way you choose to check or set your drag the first thing you need to do is warm the drag washers up by pulling or ripping some line from the spool, do this a couple of times. This heats the drag washers. When you have completed this step, you can then set your drag. The method that I prefer when using a scale is to place the rod in a rod holder and tie a loop in the end of the line. I will heat up the drag and then attach the scale to the end of the line. I will slowly pull down on the line through a bent rod and watch my scale. When the weight increases and then slips (decreases) the highest number is the weight setting for my drag. A 20-pound line with a 25% drag should slip at approximately 5 lbs. of weight. $20\text{lbs.} \times 25\% = 5\text{lbs.}$ The condition of your drag also determines the outcome of the battle.

If your drag is skipping or jumping with a steady pull of the line or you cannot get the drag to add/release tension that's a good indication that your reel needs maintenance or repairs. Your drag should be smooth regardless of the amount of drag you have set. Something else to keep in mind is that the bend in your rod also adds tension to the fish. This works to weaken the fish, so you will want to always keep a bend in your rod as you fight the fish. While fighting the fish you will need to resist the urge to adjust the drag. If anything, loosen it (just a little if necessary), as line leaves the spool the diameter of the spool changes. As the diameter gets smaller it takes more force to turn the spool. I use a cupped hand on a spinning reel or my thumb on the side of the spool on a conventional reel to slow it, NOT... on the line as you can get cut or burnt. This allows you to increase the tension and quickly take it away. When the fish is on a run, do not continue to reel if you are not gaining line, you are just heating up your drag and lessening its effect. If you overtighten/loosen your drag too much or overheat it during a fight you may break your line or allow the fish to reach structure or cover and then the fish has won the battle.

Remember the fishing lies start here.

THANK YOU CLUB SPONSOR, BASS PRO SHOPS!

 **A Big Thank You to Our Newest Sponsor:
Bass Pro Shops Daytona Beach!**

The Flagler Sportfishing Club is thrilled to welcome Bass Pro Shops Daytona Beach as one of our newest sponsors. Their generous donation is greatly appreciated and will help us continue supporting our events and initiatives. Bass Pro Shops is more than just a store—it's a unique shopping experience offering everything from hunting and fishing gear to technologically advanced clothing and outdoor essentials.

If you visit the Daytona Beach location, be sure to connect with club member Mark Dwyer, who is an associate there. Mark is an expert in sonar systems, trolling motors, NMEA networking, and radar technology. He's happy to help you find the right equipment to enhance your fishing adventures!

Thank you, Bass Pro Shops Daytona Beach, for your support of our club and our fishing community.

Stop by and show them some love on your next shopping trip!

FLAGLERSPORTFISHING.COM

TOURNAMENT CHAIRMAN REPORT BY TIM MILLER

Tim Miller
fsfctourdir@gmail.com

Happy 2025 to all our club members. With the start of a new year our Annual Tournaments starts over.

This is your chance to win a prize and bragging rights in one of the 22 species. A change for 2025 will be that Whiting will no longer be one of the eligible fish for The Year Long Species Tournament. See the club web site for complete list of eligible species along with the club rules.

The clubs' yearlong results are housed on a fantastic website. This site has some great features, including an AI program. You can access the site via "Myweighmaster.com" Once on the site, click Login, Click Create Account. Once you have an account, click Myclub, Click Take me to my club.

The 2024 Annual Catch Photo and Release tournament (CPR) was a success. A total of over 675 legal fish were released back into our waters by 41 anglers. For 2025 let us see if our club can double the number of members releasing fish. Rules for this tournament can also be found on our website. Note that fish can be caught anywhere in the state of Florida.

When you enter your CPR fish, please be sure that your information is correct before you submit. Your first name and last name needs to be the same every time you enter a fish.

Our first tournament will be the Black and Red Tournament on January 18, 2025. See flyer included in this issue with all the information. With \$700.00 in prize money, this is an opportunity to win money to cover your 2025 dues. Check out the club calendar on our website to see all the events for 2025 so you can plan your year with your Fishing Club.

Would you like to control the food and payouts for a tournament? Sign up to run one of the club free tournaments and you will be in control. Running a tournament is easy and a fantastic way to meet members. Send me an email or talk to me at the next club meeting and I will give you all the details.

Yellow Dawg Bait and Tackle at High Bridge offers 10% off bait to Club Members.

Thank you to all the volunteers that helped with club tournaments. Without this help the club would not be able to provide these momentous events. Be sure to sign up as a helper for the next tournament. I also need members to chair next year's tournaments. Please let me know if you can be the chair for any tournaments in 2025.

ANNUAL CHRISTMAS PARTY 2024 RECAP

🎄 THE GRINCH MAKES A STOP AT OUR ANNUAL HOLIDAY PARTY! 🎁

The Italian American Club went all out, creating an unforgettable evening filled with stunning decor and Grinch-inspired fun!

🌟 Gift basket raffle winners lit up the night, taking home fabulous prizes. And, of course, the Grinch himself made a star-studded appearance, spreading cheer (and a little mischief) to all!

A huge shoutout to our amazing member volunteers who worked their holiday magic to bring the festive spirit alive. You truly made the night sparkle! 🌟👏

We're also incredibly thankful to the local businesses who generously donated to our gift baskets, making them extra special.

Be sure to support these fantastic community partners:

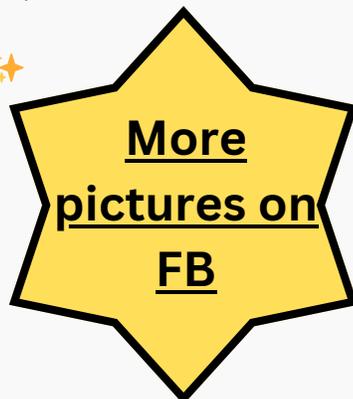

- [The Inlet Beach & General Store](#)
- [Select Home Decor & More](#)
- [Debra Jean's](#)
- [Pompano 6th Street Deli](#)
- [Allure European Day Spa](#)
- [Rodie's Place](#)
- [Sam Hayes-Skin & Body Wellness Studio](#)

👶 May your hearts grow three sizes bigger in the New Year! 🎉

Your FSC Christmas party hosts,

Quinn Bui & Debra Marinco 🎄🌟

WEIGH MASTER REPORT BY CAPTAIN SCOTT ROBERTSON

Captain Scott Robertson
Weigh Master
(407) 373-5994

Happy New Year to everybody! January starts a clean slate for both the yearlong species and yearlong CPR tournaments so let's get fishing.

Please note that Whiting has been removed from the yearlong species tournament eligible species list and will no longer be counted or weighed in.

Also, for those that have not renewed their membership by Jan 31, 2025, all fish weighed in or CPR photos submitted in January will be disqualified and participation in any club free tournament or activity will be prohibited until your membership is current (Art II Sec. 3 Par. B of club bylaws). Please get your memberships current so you don't miss the opportunity to win some great prizes.

January's fish of the month is Black Drum. FWC regulations are 14" minimum and 24" maximum. The bag limit is 5 fish. November's fish of the month was Snook. There was no winner. December's fish of the month was Whiting and will be announced at the January meeting.

January's Fish of the Month is Black Drum

The winners of the 2024 yearlong species tournament will be announced at the January meeting and the 10 winners of the 2024 yearlong CPR tournament will be picked by spinning our Reel Of Fortune at the January meeting so come to the meeting so you don't miss the excitement.

Remember, just one CPR submission gets you into the CPR drawing at the end of the year and the more photos you submit, the better your chances of winning a great prize are.

CPR photos must be caught in State of Florida waters and meet FWC requirements including in season, length, and proper measuring method. Please check FWC rules to make sure you are measuring properly (i.e. nose to tail, pinch the tail, nose to fork etc). Photos not meeting FWC requirements will be deleted.

Please note that for the species yearlong tournament, if your fish is not heavier than the 6th place fish for that particular species in the Men's or Ladies' standings, there is no need to weigh-in the fish. Points are only given for places 1 through 6.

****NOTICE** - The overall species Leaders and Full Point Standings are updated at the end of each month on the club website:
flagersportfishing.com
 Then under Fishing click on YearLong Club Standings.

WEIGH MASTER REPORT CONTINUED

0.06 lbs = 1 oz	0.56 lbs = 9 ozs
0.13 lbs = 2 ozs	0.63 lbs = 10 ozs
0.19 lbs = 3 ozs	0.69 lbs = 11 ozs
0.25 lbs = 4 ozs	0.75 lbs = 12 ozs
0.31 lbs = 5 ozs	0.81 lbs = 13 ozs
0.38 lbs = 6 ozs	0.88 lbs = 14 ozs
0.44 lbs = 7 ozs	0.94 lbs = 15 ozs
0.5 lbs = 8 ozs	1 lb = 16 ozs

You can see the standings for both the Yearlong Species and Year Long CPR tournaments by going to the club web page and clicking on *Fishing* then *Yearlong Club Standings*.

There has been some confusion with the way the weight of fish is calculated in the yearlong species tournament standings. The weight is calculated in pounds carried out two decimal places. I have provided a table that you can use to convert the decimal places back to ounces below. Simply replace the two decimals in the standings with the corresponding ounces in the table.

Example: 1.31 lbs = 1 lb 5 ozs.

We have a new supply of our official bump boards available to buy for \$20. If you wish to use your own bump board, it needs to be approved by the club and a sticker attached to be legal. Bump boards are available at club meetings and Hammock Bait and Tackle. Cash only at Hammock Bait and Tackle.

A reminder for everyone fishing in our tournaments. All fish must comply with FWC rules. Fish weighed in for our club tournaments must be caught in St. Johns, Flagler, and Volusia counties. Fish being photographed and released for CPR entry must be caught in state of Florida waters.

Fish brought to the weigh-in are required to be measured on the official club bump board before being weighed. Please take your fish to the bump board at the weigh table before putting it on the scale. If you weigh in a fish at a club tournament, I will enter the data in the Yearlong Tournament. There is no need to take the fish to a weigh station.

WEIGH MASTER REPORT CONTINUED

CPR photos for tournaments must be shown to the weighmaster at the tournament and must include a timestamp on the photo to be eligible to win a prize as noted on the tournament flyers.

Important reminder:

The rules for each tournament are clearly stated on the flyer published for that tournament. PLEASE READ THE RULES. There will be no exceptions to the rules.

NOTICE - The overall species Leaders and Full Point Standings are updated at the end of each month on our website: <https://flaglersportfishing.com/> Then under Fishing click on YearLong Club Standings.

Here's wishing everyone a great and happy holiday season! Thanks for everyone's support, and if you have any questions, please let me know.

Captain Scott Robertson

HAPPY
Birthday

Happy 71st Birthday to Our Amazing
Weighmaster, Scott!

Pictured is a heartwarming surprise from
Scott's daughter, Jennifer, who traveled all
the way from Thailand to make this
birthday even more memorable.

FISHING REPORT BY CHRIS CREGO

Flagler County Inshore Fishing Report, December 2024

Fishing Report brought to you by Chris Crego with Skinny Water Lures

Overview:

Beginning of December brings cooler temperatures to Palm Coast area, but the inshore bite remained strong as fish begin to adapt to the changing conditions. Despite the drop in water temperature, many species remained active, and we seen good fishing throughout the month, especially in the morning and late afternoon when the water is warmer.

Target Species:

Redfish:

Redfish are still a top target in December. They're often found around the deeper holes, oyster bars, and mangrove edges. The cooler water temperatures can push reds into more concentrated areas, making them easier to locate. Look for them to be in schools, especially in the early mornings. Live shrimp, cut mullet, and artificial soft plastics like Skinny Water Lures 4inch paddle tail are great bait choices for reds this time of year.

Snook:

Snook fishing can be good during December, especially on warmer days. They're still present near inlet mouths, bridges, and deep pockets around estuaries. As water temps drop, snook will begin to migrate toward warmer waters, making the Palm Coast inshore areas and the Intracoastal Waterway a great place to target them. Larger paddle tails and SWL jerkbaits work well.

Trout:

Speckled trout can still be found, particularly in the deeper channels and on flats near structures like creek mouths, drop-offs, and grassy bottoms. They tend to slow down in colder weather, so a slower retrieval with soft plastics or live shrimp works best. Look for trout near deeper water during cooler parts of the day, and move to shallower areas as the sun warms the water. SWL twitch baits and curly tail grubs have been working well to catch trout.

FISHING REPORT BY CONTINUED

Sheepshead:

This is the peak time for sheepshead fishing. These hard-fighting fish are abundant around docks, bridges, and rocky structures. They're drawn to structure during the winter months, making this a prime time to fish for them. Use live fiddler crabs or sand fleas on a light rig with minimal weight to tempt these tasty fish.

Black Drum:

Black drum fishing tends to pick up in December. They are often found near oyster bars, sandbars, and deeper channels. Like redfish, they are often caught using live shrimp, cut bait, or artificial crabs.

Fishing Tips:

Fish Early and Late: Water temperatures are typically lower in the morning and evening, so fishing during these times when fish are more actively feeding is key.

- Using a variety of SWL artificial lures is a great bait option for all the popular species.
- Look for Deeper Water: As temperatures drop, fish will seek deeper pockets of water to stay warm. Focus on areas with significant depth changes like drop-offs, channels, and the mouths of creeks and rivers.
- Weather Matters: Pay attention to cold fronts. After a cold front, fishing can slow down.

Mid and late December marked the transition into winter, bringing cooler water temperatures and changing fish patterns. With the full moon that occurred on the 15th, it brought heightened tidal activity, which influenced feeding times and the overall fishing conditions. Water temperatures ranged from the mid-60s to low 70s°F, prompting inshore species to feed aggressively before the colder weather set in.

Species Overview:

Redfish:

Redfish action remains strong throughout December, with fish being found around the Intracoastal Waterway (ICW) and in backcountry estuaries. Fish tend to school up more in cooler weather, especially near structure like oyster bars, grass flats, and mangroves. The full moon tides brought in larger schools of redfish as they feed heavily during higher water levels. Best live bait: live shrimp, mullet. Soft plastics of choice were the Skinny Water Lure 3 inch paddle tail in dark, natural colors.

Seatrout:

Seatrout fishing was solid this week, with fish active in deeper channels and around sandy or muddy flats. On the full moon, we found seatrout biting heavily during the early morning and late evening, especially during the higher tides. Focus on using soft plastics (like SWL paddle tails) and suspending twitch baits in brighter colors. Look for them near drop-offs and deeper grass flats.

FISHING REPORT BY CONTINUED

Flounder:

Flounder fishing remained productive, with fish staging in deeper holes and along channel edges. Full moon tides brought increased flounder movement, especially at night. Using live bait focus on live finger mullet, or SWL curly tail jigs to target them. We found most fish in areas with sandy bottoms near structure or deeper, slower-moving water.

Sheepshead:

December month is the start of sheepshead season in full force. This week we found them around bridges, docks, and other man-made structures. The full moon seemed to enhance their feeding activity, especially active during high tides. Using fiddler crabs, shrimp, or live sand fleas found best results.

Black Drum:

Black drum action picked up in this week, with fish congregating near deeper areas of the ICW, especially around structure. The full moon tides increased the chances of catching larger black drum, as they were more active during these periods. Using live crabs or cut mullet work best this week.

Tide Influence (Full Moon - December on 15th):

The full moon's tidal influence was stronger than normal, with higher highs and lower lows. We found quicker-moving tides, especially during the period around the full moon itself. During the full moon phase, we found fishing during the incoming tide, especially late in the afternoon leading into the evening, yield the best results. Early morning bites on the outgoing tide also very productive.

Fishing Tips:

- Focus on the first few hours of daylight and late evening for the best bites, especially during the higher water levels brought on by the full moon.
- As fish are less active in cooler water, slow down your presentation. Consider using lighter tackle for more finesse and sensitivity.
- Look for areas with strong tidal flow, such as passes, jetties, or creek mouths, where fish are more likely to congregate.
- Pay attention to water clarity, as wind can muddy up flats and make fish more cautious. Fish near drop-offs or deeper areas if the water becomes muddy.

By fishing during the key tide phases and adjusting to the cooler water temperatures, anglers can expect solid catches.

Tight Lines!!

ANDY BLOCK'S SHORELINE SHOWDOWN SUCCESS

Submitted by Club Member Andy Block:

Recently, I participated in the Shoreline Showdown Tournament, the fourth and final event in a statewide series held throughout 2024. I only fished 1 out of 4, so I doubted I'd be eligible for the next day's Invitational Championship Tournament. Got lucky and won 1st place biggest pompano and the prize was a nice amount of CASH! Blew my mind!!! That win qualified me to get invited for the next day.

With no bait and just a few rigs the sharks hadn't mangled, I got ready to do another 8 hours of fishing. The Championship Tournament was for the total weight of 3 whiting and 3 pompano combined. I got to a beach that held sand fleas, figuring I could get bait and fish before moving 20 miles north. I pulled in and to my surprise, my friend Noel Kuhn, fishing guide extraordinaire, was unloading his truck to fish the same invitational. We fished a hundred feet apart and watched each other catch until the spot went dead.

We packed up and moved 15 miles north, but that spot was also dead. Of the 5 pompano I caught that morning, the 3.69 pounder tipped the scales enough for me to take 2nd place for another large cash prize! Unreal!! I felt my jaw drop when I heard the amount. What an amazing weekend, winning insane amounts of cash and a few hundred dollars in merchandise from each tournament for doing one of the things I love most.

A huge thank-you to the sponsors who made it all possible: Fishbites, The Sinker Guy, Over the Bar Rods, and all the others who contributed to the cash prizes and tournament success.

If you haven't already, I highly recommend giving one of these tournaments a shot—you never know when your luck might strike!

Tight lines,

Andy Block

'kids4reel' IN THE COMMUNITY

🎄 Holiday Cheer Through 'kids4reel!' 🐟

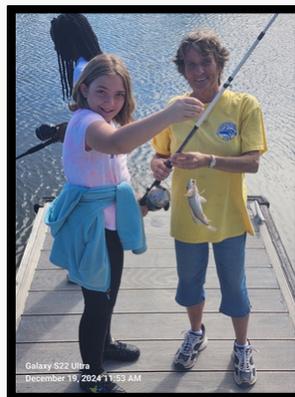

The Flagler Sportfishing Club’s ‘kids4reel’ initiative has once again made a huge impact this holiday season! Thanks to the generosity of our incredible members, we raised over \$1,000 in donations. These funds have been distributed to our seven partner schools in Flagler and St. Johns counties, empowering them to provide gift cards to families in need and brighten their holiday season. 🎁🌟

A heartfelt thank-you to everyone who contributed—you’ve truly made a difference! Together, we’re not only fostering a love for fishing but also giving back to our community in meaningful ways. 🐟❤️

Additionally, your generous donations helped power some incredible pre-holiday fishing adventures recently! Our FSC ‘kids4reel’ partner school, Wadsworth Elementary, held two unforgettable fishing events this past week.

The boys’ group, led by Assistant Principal Cody Anderson, kicked things off with an outing at Herschel King Park, reeling in an impressive 26 fish! Not to be outdone, the girls’ group, led by Dean Rachel Hayes, showed their competitive spirit the following day and caught even more fish! 🐟🌟

JANUARY MEMBER MEETING

FLAGLER SPORTFISHING CLUB

Monthly Meeting
Thursday,
January 9th, 2025

7:00pm Quick Tips

7:30pm General Meeting & Chili Cook-Off

Winners of the 2024 Yearlong Species Tournament will be announced and winners of the 2024 CPR Tournament will be drawn.

7:45pm Break

8:00pm Guest Speaker -

Mark Dwyer

Topic: Fishing for Black Drum; Baits & Tackle, Electronics

New Meeting Location!
Club 51/Social Club
51 Old Kings Rd. N
Palm Coast, FL 32137

Thank you, Sponsors!

Winners of the 2024 Yearlong Species Tournament will be announced and winners of the 2024 CPR Tournament will be drawn!

JANUARY MEMBER MEETING GUEST SPEAKER

MARK DWYER

January 9th, 2025
Meeting starts at 7.00 pm

Mark Dwyer is an avid local angler with a wealth of knowledge in sonar systems, trolling motors, NMEA, and radar technology.

Join us as Mark shares his insights on catching Black Drum, just in time for our January Red & Black Tournament!

You won't want to miss this opportunity to learn from one of the best.

JANUARY MEMBER MEETING

✨ Special Request from Ron Gorney! ✨

Ron could use a few helping hands at the January meeting to assist with setup for the Chili Cook-Off. If you're available, please arrive at 6:00 PM and lend a hand.

Our members are what make our club so amazing—thank you for your support! 🍷

January 9th, 2025

CLUB CHILI COOKOFF

Bring Your Best Chili in a crock pot to the
January Club Meeting at 6:30pm

1st Place: \$75

2nd Place: \$50

3rd Place: \$25

**Club will provide
bowls & spoons.

BLACK & RED TOURNAMENT

Saturday January 18th, 2025

Bing's Landing North, Weigh-in 2pm-3pm

50/50

**Species:
Redfish & Black Drum**

Raffle

Redfish

Black Drum

1st \$100
2nd \$80
3rd \$70
4th \$60

1st \$100
2nd \$80
3rd \$70
4th \$60

CPR Prizes: - \$50 Redfish with Most Spots on 1 side

CPR RULES: Show photo of released legal fish on club approved bump board to Weighmaster at weigh-in. CPR tie-breaker is first photo shown to Weighmaster.

Show Up Drawing - \$25 Gift Card

RULES:

- Fishing starts at 6:30am, fish from anywhere, FWC Rules apply
- One cash prize per person, including Bonus
- Any open fish prizes will be filled from a drawing of members who fished but didn't win a cash prize
- Tie-breaker: first fish weighed in
- Junior Anglers (under 12) fish free with a member
- Free to members, guests may fish with a \$20 donation & must fish with member

Weigh-In:

2pm - 3pm Bing's Landing North

Lunch Provided, served at 2pm. Free for one guest Additional guests \$10 donation.

Sign Up:

Members may attend the weigh-in even if they don't fish. Deadline is 1/15. Please sign up for food head count. Sign up at January monthly meeting or <https://flaglersportfishing.com/event/club-black-red-tournament/>
